📍 Brno, CZE

Hi, my name is Viktor. Although I studied astrophysics, I decided to join my career with retail. But the world is changing, so today I'm intensively studying programming and I hope for a future application in this direction.

## WORK EXPERIENCES

### Full-Stack Developer in OKAY s.r.o.

July 2021 – today

I collaborated on the development of a new e-commerce platform using Shopify. My primary focus was front-end development, utilizing Shopify Liquid, JavaScript, and VueJS. I also took charge of automating tests with Python language.

### Education Manager in OKAY s.r.o.

January 2017 – June 2021

I oversaw a team of education specialists, managing the development of professional training materials for store staff. This encompassed various training methods, including e-learning, face-to-face training, and video-based training.

### Entrepreneur in DOPLNA.cz

February 2013 – December 2016

I was responsible for the full administration of the DOPLNA.cz e-shop, which included purchasing, supplier negotiations, product management, and marketing.

### Back Office Manager in DATIX s.r.o.

May 2011 – November 2015

I oversaw the administration of the mobilprovas.cz e-shop, actively contributed to the development of the internal system, managed a team in the company's back office, conducted hiring procedures for new employees, and handled product management.

### Store Manager in Vodafone

June 2010 – May 2011

My responsibilities included sales of Vodafone products and services, overseeing a sales team at a partner store, ensuring sales targets were met, managing store appearance, and conducting employee recruitment.

### Sales Representative in US-ACTION s.r.o.

October 2007 – May 2010

My role involved selling computer games, hardware, and software. I was responsible for maintaining the store's appearance as well.
